

Investment Objective & Strategy

The aim of the VIP Ethical Balanced eXplore Portfolio is to provide investors a high level of capital growth over the medium to long term through exposure to a diversified portfolio of ETF's tracking major indices, while providing low management costs to investors. Underlying all investments will be a strict environmental, social, and governance (ESG) screen which will work to identify companies which are acting in line with social expectations and are not only working in pursuit of maximising profit but engaging in their responsibility to the community regarding the environment and the social responsibilities of creating a more sustainable future.
